this reference handbook surveys research on the central issue associated with the teaching of unprepared writers though basic writing has only been recognized as a distinct area of teaching and research since 1975 the existing bibliographic texts already seem limited due to their age or lack of annotation this volume provides current and extensive bibliographic essays and will help to define this new field of study for teachers and researchers following an introduction that summarizes the origins and significant texts in basic writing the book is divided into three sections social science perspectives linguistic perspectives and pedagogical perspectives the first section which contains three essays views the field through the lens of social psychological and political issues the second section also containing three essays examines contributions made from studies of grammar dialects and second language acquisition the third section in its four essays focuses on the design development administration and evaluation of basic writing courses the use of computers in basic writing classrooms the role of the writing lab and the preparation of basic writing teachers an appendix that reviews current textbooks for basic writing courses is also included as well as an index this book will be a valuable resource for teachers of basic writing in education courses and workshops that train teachers and tutors and in fields such as linguistics technical writing and teaching english as a second language it will also be an important addition to public and university libraries and many education programs

unique best practices are highlighted to show the latest evidence based research related to interventions online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence based practices unique icons in page margins point to related animations video clips additional content and related resources on the evolve site

common sense tells us that verbal communication should be a central concern both for the study of communication and for the study of language language is the most pervasive means of communication in human societies especially if we consider the huge gamut of communication phenomena where spoken and written language combines with other modalities such as gestures or pictures most communication researchers have to deal with issues of language use in their work classic methods in communication research from content analysis to interviews and questionnaires not to mention the obvious cases of rhetorical analysis and discourse analysis presuppose the understanding of the meaning of spontaneous or elicited verbal productions despite its pervasiveness verbal communication does not currently define one cohesive and distinct subfield within the communication discipline the handbook of verbal communication seeks to address this gap in doing so it draws not only on the communication discipline but also on the rich interdisciplinary research on language and communication that developed over the last fifty years as linguistics interacted with the social sciences and the cognitive sciences the interaction of linguistic research with the social sciences has produced a plethora of approaches to the study of meanings in social context from conversation analysis to critical discourse analysis while cognitive research on verbal communication carried out in cognitive pragmatics as well as in cognitive linguistics has offered insights into the interaction between language inference and persuasion and into cognitive processes such as framing or

metaphorical mapping the handbook of verbal communication volume takes into account these two traditions selecting those issues and themes that are most relevant for communication scholars it addresses background matters such as the evolution of human verbal communication and the relationship between verbal and non verbal means of communication and offers a an extensive discussion of the explicit and implicit meanings of verbal messages with a focus on emotive and figurative meanings conversation and fundamental types of discourse such as argument and narrative are presented in depth as is the key notion of discourse genre the nature of writing systems as well as the interaction of spoken or written language with non verbal modalities are devoted ample attention different contexts of language use are considered from the mass media and the new media to the organizational contexts cultural and linguistic diversity is addressed with a focus on phenomena such as multilingual communication and translation a key feature of the volume is the coverage of verbal communication quality quality is examined both from a cognitive and from a social perspective it covers topics that range from to the cognitive processes underlying deceptive communication to the methods that can be used to assess the quality of texts in an organizational context
